

Anti-Spatter Spray

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Safety and health

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Available sizes:

11700400

Anti-Spatter Spray 400 ml

SLV-tested silicone-free

WEICON Anti-Spatter Spray contains no silicone and is used to clean welding nozzles and to keep them clean. At the same time, it protects the work piece to be welded against the effect of weld splashes without impairing the welding seam.

Anti-Spatter Spray prevents the adhesion of welding splashes on gas nozzles and workpiece surfaces, offers gap-free protection for the welding process, and makes follow-up cleaning of the workpieces with a spatula, brush or chisel superfluous.

Post-treatment of the work-piece such as: bronzing, galvanisation, anodising or painting is possible without special cleaning. Cleaning, for example, with WEICON Spray Cleaner S, may be necessary solely in the case of excessive spraying.

Technical Data

Odour	solvent
Features	SLV-tested, silicone-free
Silicone free	yes
Storage stability	24 months
Colour	colourless
ISSA-Code	53.402.44
IMPA-Code	450842

Processing

Spray on welding nozzles at a distance of about 15 cm. To protect the work piece surface, hold can at about 25 cm distance and spray on an area of approx. 10 cm to the left and right of the weld seam. Start welding process in hollow parts and narrow spaces only after evaporation of the propellant.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
